

ICMAP 2018

The 7th International Conference on Microelectronics and Plasma Technology

July 24-28, 2018 / Songdo ConvensiA, Incheon, Korea

Prof. Xiulan Hu

Nanjing Tech University, China

Xiulan Hu is a professor, associate dean of College of Material Science and Engineering, Nanjing Tech University. She got her Bachelor of Engineering (BE) in Silicate Engineering at North West Institute of Light Industry (China), Master of Engineering (ME) in Materials Science at Shaanxi University of Science & Technology (China), Doctor of Science (Ph.D) in Materials Science at Kochi University (Japan). And Dr. Xiulan Hu got the Japan's science ministry full scholarship during 2002-2006. She used to work as a teaching assistant and lecturer in Shaanxi University of Science & Technology, as a postdoctoral fellow in the National Institute of Advanced Industrial Science and Technology (2006-2010, Japan), as an appointed associate professor in Nagoya University (2010-2012, Japan). Currently Dr. Xiulan Hu's researches focus on the R&D of new nano-functional materials (metal oxide, metal and alloy nanoclusters and their composite materials) in the field of environment and energy.
