

ICMAP 2018

The 7th International Conference on Microelectronics and Plasma Technology

July 24-28, 2018 / Songdo ConvensiA, Incheon, Korea

Eric A. Joseph
Senior Manager,
Master Inventor & Principal Research Staff
Member
Advanced Materials, Characterization and
Process Technology
IBM Research, USA

ERIC A. JOSEPH is a Principal Research Staff Member, Master Inventor and Senior Manager of the Advanced Materials, Characterization and Process Technology Group within the Science and Technology organization at the IBM T. J. Watson Research Center in Yorktown Heights, NY. He joined IBM in 2005 and is currently responsible for defining and delivering novel unit process technology strategy and capability for advanced chemical mechanical planarization, electrochemical and wet chemical processes, and thin film deposition and etch processes for IBM's advanced prototyping facility. He is an author or co-author of over 20 technical papers and has over 80 patents filed or pending.
