

ICMAP 2018

The 7th International Conference on Microelectronics and Plasma Technology

July 24-28, 2018 / Songdo ConvensiA, Incheon, Korea

Professor. Hai-Xing Wang

Beihang University, P. R. China

Dr. Hai-Xing Wang is now the Professor of Beihang University, Fellow of Chinese Society of Theoretical and Applied Mechanics, Chinese Society of Astronautics, Chinese Society of Aerodynamics Research. He focuses his research interests on low temperature plasma applications, such as arcjet thruster, micro-discharge more than 10 years and some important progresses have been achieved through the continuing efforts on this field. These progresses have been recognized by the international colleagues. More than 40 peer reviewed papers have been published in this field. He was invited to have talks on the 21st International Symposium on Plasma Chemistry (ISPC21, 2013), the 13th Asia-Pacific Conference on Plasma Science and Technology (APCPST, 2016), 1st Asia-Pacific Conference on Plasma Physics (AAPPS-DPP2017). He was also invited to present papers to the Special issues for the Plasma Chemistry and Plasma Processing in memory of Professor Emil Pfender (2016) and in memory of Professor Joachim Heberlein (2015)..
